

## ***Coronavirus Aid, Relief, and Economic Security (CARES) Act<sup>1</sup>*** **Provisions related to Veterans**

The Department of Veterans' Affairs (VA) is receiving \$19.6 Billion through the *Cares Act*. The VA serves as a backup health system in times of crisis—often referred to as the VA's 4<sup>th</sup> mission. These funds will help ensure continuity of service to our Veterans, including homeless and low income Veterans, and prepare for the possibility of being activated for 4<sup>th</sup> mission.

### **Medical Services**

Provides \$14.4 billion to support increased demand for healthcare services at VA facilities and through telehealth, including the purchase of medical equipment and supplies, testing kits, and personal protective equipment (PPE). It will also enable the VA to provide additional support for vulnerable veterans, including through programs to assist homeless or at-risk of becoming homeless veterans, as well as within VA-run nursing homes and community living centers.

### **Medical Community Care**

Provides \$2.1 billion to support increased demand for care in the community, specifically emergency room and urgent care.

### **Tele-Health for Case Managers and Homeless Veterans**

Ensures telehealth capabilities are available for case managers and homeless veterans participating in the HUD–VASH program, allowing efficient access to our most vulnerable veterans.

### **Financial Assistance for Support Services for Low Income Veterans**

Waives limits on grant amounts and rates for *per diem* payments for temporary housing to maximize social distancing within the vulnerable homeless veteran population.

### **Modifications to Comprehensive Service Programs for Homeless Veterans**

Waives funding limits for financial assistance for supportive services for very low-income veteran families in permanent housing during the public health emergency.
