

OPEN HOUSE LUNCHEON

Thursday
**OCT
21**

**11 AM
to
2 PM**

7601 S Anthony Blvd.
Ft. Wayne, Indiana 46816

Please come through the barrier gateway and park on the North side of the parking lot. The entrance is on the Northern side of the building.

Rich Banta

Get a sneak peak into this historic facility. Co-owner, Rich Banta, will be giving a brief presentation on the data center's **EMP (electromagnetic pulse)** and **CME (Coronal Mass Ejection) defenses** at 12:45 p.m.

Lifeline Data Centers Ft. Wayne Data Center will be the **first commercially available EMP and CME shielded data center in the United States**. The facility will house 84,000 square feet of colocation and private cloud space that is protected through a reinforced structure with a custom, state of the art, electro-magnetic pulse (EMP) shield.

Have your questions answered regarding the technology behind the data center and why Lifeline selected Fort Wayne as its newest location.

Please RSVP to JJ Huber at jj@lifelinedatacenters.com.
