

NIBCC Military Support Fund

Immediate help for local military families in crisis

If you're an active duty service member, reservist, guardsman or recently separated veteran in Northeast Indiana, you and your family have a safety net in case of emergency —

The NIBCC Military Support Fund

The MSF is a 501(c)(3) nonprofit charity established in 2012 between the Northeast Indiana Base Community Council (NIBCC) and the Community Foundation of Greater Fort Wayne. The program offers a one-time emergency financial assistance (up to \$650) to help with:

- Basic living expenses
- Pay/allotment problems
- Medical/dental expenses
- Solitary disaster
- Military hardship
- And other essential needs

The intent is to support and retain resilient military members and their families, living or serving in Northeast Indiana. The fund also assists veterans within 12 months of exiting the military.

To procure a military support grant, the applicant (the service member or a family member) is required to complete a three-page application, including a narrative statement, related to financial assistance needs, a budget worksheet, reflecting income and expenses and copies of outstanding invoices or bills. They submit the packet to the MSF Committee, who reviews and discusses the application. If approved, a check is delivered, usually within 24 hours.

For more details, contact your unit's Family Readiness team.
